Quality education in the early years of preschool sets a firm foundation in the overall development of a child. At NES Sunbeam School, the nursery curriculum provides a right array of activities to help children move towards achieving their early learning goals.

In Nursery, children are engaged in school readiness activities such as reading, writing, counting, number recognition and problem solving in a fun filled but purposeful manner. Children are encouraged to corroborate their learning through collaborative activities in the areas of dramatics, science and arts.
